

## Instructions for creating an account

**Login or Logout**

Username

Password

Log in

**Create an account**

[Forgot your username?](#)

[Forgot your password?](#)

This will be found on left side of page

1. On the left under the “Log in” button, select “Create an account”.
2. Fill in the fields as requested.
3. When fields are filled in, select “Register”

Note: After you input the “create an account” information and select “Register”, you will get an email to verify your account. Follow the instructions on the email.

## Username and Password Rules Below

### Username:

1. Use **at least** 6 alphanumeric digits combined with **at least** One Uppercase letter and/or **at least** One Lowercase letter.
2. It should **not** contain your password, real name or company name.
3. It should **not** contain personal information.
4. It **should** be significantly different from previous usernames.

**Example:** us5erN

### Password:

Note: People think a short set of random characters like “K>#)0\$j4” is super secure, but a long string of memorable words like “golfkangarooocrispyhalitosis” is actually stronger.

Your password will be checked when you register. If it does not meet the password rules, it will be rejected.

1. Use **at least** 12 alphanumeric digits combined with:
  - a. **At least** One Uppercase letter.
  - b. **At least** One Lowercase letter.
  - c. **At least** One Number.
  - d. **At least** One Symbol. (No spaces allowed.)
2. It should **not** contain your user name, real name or company name.
3. It should **not** contain personal information.
4. It **should** be significantly different from previous passwords.

**Example:** i1ove2goBoat!ng

**Note: If you do 4 incorrect entries in a row, you will be locked out for 3 hours.**

When you get the message, your account has been approved, **delete** the message and go **directly** to the MYC web site and sign in.

**It would be helpful to print out these instructions while creating an account.**

**USE BACK ARROW to RETURN TO MYC WEB SITE**
